SINGMASTER PRINTING CO. FORT WAYNE, IND.

# LINDENWOOD CEMETERY

The Lindenwood Cemetery was organized in 1859 and is one of the most beautiful modern Cemeteries in this section of the country.

The hilly and rolling land lends itself admirably to landscape harmony and every effort has been made by artistic hands to beautify these grounds so solemnly consecrated to the use of a common sepulture.

No profit can ever accrue to any of the Corporators as the enterprise is purely one of unselfish benevolence.

Lots which are sold with perpetual care are exempt from taxation, cannot be subjected for debt and vary in size to suit the needs of all.

## THE OFFICERS AND THE OFFICE

The Superintendent, the Secretary, and their assistants give their constant personal attention to the conduct of the Cemetery. The main and only office of the Association is at the Cemetery.

It is desired that every lot and grave owner shall feel free to consult with the officers at all times. Their advice and assistance will be given cheerfully (and without charge) and will often be found of value to those contemplating the purchase of monuments or the making of other improvements.

## ORDERS FOR WORK, COMPLAINTS, LOST AND FOUND ARTICLES

All business should be done at the office. Orders for work should be left there, complaints made, and lost and found articles reported.

Employees are forbidden to accept orders or instructions for work except as issued through the office.

Every person is urged to report any errors, bad work or lack of proper care to the office at once. Errors will occasionally be made and the management wishes to promptly rectify them.

## TWO RULES TO BE OBSERVED BY ALL PERSONS

Do not meddle with anything in the Cemetery which does not belong to YOU.

Do not give orders or make complaints to the workmen. GO TO THE OFFICE. There you will always receive prompt, courteous and effective attention.

The gates of the Cemetery will open at 8 o'clock A. M. and close at 6 o'clock P. M. during the months that it is daylight until 6 o'clock P. M., and during all other months from 8 o'clock A. M. until sunset.

The office at the Cemetery will be closed on Sunday and no lots sold or other business transacted, except in case of emergency when necessary to make arrangements for immediate interment.

## CONDITIONS, LIMITATIONS AND PRIVILEGES TO WHICH EVERY LOT IN LINDENWOOD CEMETERY IS SUBJECT

No lot or lots shall be used for any other purpose than as a place of burial for the dead, and no trees within the lot or border shall be cut down or destroyed without the consent of the Superintendent.

The proprietor of any lot or lots shall have the right to erect proper stones, monuments, or sepulchral structures (except that no slab shall be set on edge over one foot in height,

unless it be at least four inches in thickness, and to cultivate hardy trees, shrubs, and plants in the same. All improvements on lots must be approved of by the Superintendent. All hedges, as well as tender trees and shrubbery, are prohibited by an order passed February 14, 1884.

If the land marks and boundaries of any lot shall be effaced, so that the lot cannot, with reasonable diligence, be identified, the Board shall set off to the said grantee, his or her heirs or assigns, a lot in lieu thereof in such part of the Cemetery as they may see fit, and the lot hereby granted shall, in such case, revert to the corporation.

If any trees or shrubs situated in any lot or lots shall, by means of their roots, branches, or otherwise, become detrimental to the adjacent lots or avenues or dangerous or inconvenient to passengers, or that may be considered to endanger by falling or otherwise, any monument or other improvement on other lots, it shall be the duty of said Board, and they shall have the right, to enter into the said lot and remove the said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

If any monument or effigy, or any structure whatever, or any inscription, be placed in or upon any lot which shall be determined by the major part of said Trustees, for the time being, to be offensive or improper, the said Trustees, or the major part of them, shall have the right and it shall be their duty, to enter upon said lot and remove the said offensive or improper object or objects.

No lot shall be defined by any so-called fence, coping, hedge embankment or flower border.

The planting of trees and shrubbery within the narrow limits of a burial lot, must be done only with the approval and under the direction of the Superintendent.

It shall be the right and duty of the Board of Trustees from time to time to lay out and alter such avenues and walks, and to make such rules and regulations for the government of the grounds as they may deem requisite and proper, and calculated to secure and promote the general objects of the Cemetery.

Boxes, shells, toys, wire and screens, and designs of any description, rusty unpainted or broken benches, seats and vases, iron hooks from which baskets, bowls or flower pots are suspended, and similar articles scattered upon graves or lots are inconsistent with the proper keeping of the grounds, and will not be permitted.

Watering utensils must not be left on lots, they are unsightly and in danger of being stolen. In no case will the Association be responsible for articles left on lots.

Wooden markers, plaster of paris images and boards placed around graves will not be allowed.

Heavily laden teams will not be allowed to enter the Cemetery in wet weather, or when in the opinion of the Superintendent the roads are in danger of being injured; and no monumental work or grave marks can be moved on the sections on wheels.

### GRAVE MOUNDS

On all sections platted on or after January 1, 1899, and single grave sections, grave mounds or flower beds will not be permitted.

### CHAIRS, SETTEES AND VASES

The Association strongly advises lot owners not to place *any chair or settee upon the lot*, as it attracts strangers to the lot and the constant use of the settee by them destroys the grass and is objectionable in other ways.

Receptacles for cut flowers should be sunk level with the ground, thus insuring the safety of such articles, and facilitating the cutting of the grass from the graves.

Urns filled with plants will be permitted on lots, but after June 1st of each year if said urns are not filled with plants they will be removed from lot.

### IMPROVEMENTS

Persons wishing to make improvements are referred to the Superintendent, who will furnish moderate estimates of the cost of such improvements as they desire to make coming within these regulations. All charges payable when orders are given. No work or any improvement of lots or graves will be permitted by any outside party.

### NOTICE

Employes are forbidden to loan buckets, watering cans or tools, or to sell or give away soil, fertilizer or sod.

### DISCLAIMER

The Association will take every reasonable precaution to protect all private property or lot and grave owners, properly in the Cemetery, from loss or damage, but it distinctly disclaims all responsibility for loss or damage from causes beyond its reasonable control and, especially, from the acts of thieves, vandals, rioters, and malicious mischief makers; from all acts of providence including especially winds, tornadoes, cyclones, hail, snow and frost whether the damage be direct or collateral.

### LOTS

The Board informs persons who may wish to obtain lots in this Cemetery that they will

have the ground they purchase secured to them, their families and heirs, for a burial place forever, and for the burial of such other persons as they may choose to admit, provided, such admission is free of charge and without any compensation; but owners can not resell or transfer their lots to any other person whatever, without the consent of the Board first had and obtained in writing.

In transferring a lot when no provision has been made for perpetual care, such provision must be made when the lot is transferred.

Persons wishing to purchase lots are referred to the office of the Superintendent on the premises. Payments on lots are made as follows:

One-half down and the balance in three annual payments at 6 per cent. interest. All lots are sold under perpetual care. If the deferred payments are not met promptly, after one year, burial will be refused until such payments are made; and if persons refuse, fail or neglect to meet their deferred payments promptly, the Association shall have the right to take immediate possession of said lot or lots and may sell the same, or any part thereof, and remove the remains of any body buried therein to any other part of said Cemetery, and all payments made thereon shall be held by said Association as rent for the use of said lot.

Persons owning adjoining lots separated by an alley three feet in width may vacate and become the owners of such alley between said lots.

### WHAT PERPETUAL CARE INCLUDES

The term "Perpetual Care" shall mean the cutting of the grass upon the lot or grave at reasonable intervals; the raking and cleaning of the lot or grave; the pruning of the shrubs and trees; and such work as may be necessary to keep the lot or grave in good and neat condition; meaning and intending to continue forever similar work to that now regularly

done upon the lots and graves along these lines. In addition to this the said Association hereby binds itself to keep in repair and maintain in good condition, the inclosures, buildings, drives, walks and borders in the cemetery.

Under the agreement, however, the Association does not bind itself to maintain, repair or replace any grave stones or monumental structures erected upon the lot or graves therein, nor to plant flowers or ornamental plants, nor to maintain mounds upon the graves, nor to do any special or unusual work. The Association does not agree to regularly water the grass.

The Association will accept, in trust, funds which may be tendered by lot owners, or left by will, the income to be devoted to the care or repair of the lot or monument. Such trust funds will only be accepted under terms satisfactory to the Association. Full information will be given upon application.

## SUNDAY AND HOLIDAY FUNERALS

Certain serious abuses have existed in connection with Sunday funerals. Many clergymen strongly oppose them and a large number of the Lindenwood lot and grave owners have expressed their strong disapproval of the evils attending the burial of the dead on Sunday.

The unnecessary Sunday funeral imposes a needless burden of expense upon the Association and deprives employes of their chance for a day of rest.

For these reasons an additional charge will be made for each funeral upon Sundays or Holidays, whether to the vault or for interment upon lots or in single graves. This rule will not apply to contagious cases, when immediate burial is required by law, provided that it is plainly shown that it was impossible to make the burial on a previous working day.

## INTERMENTS

For the purpose of making proper charges for the opening of graves three classes are established according to the ground space used. An adult grave will ordinarily be required for a child 10 years of age and may be required in case of a younger child, should the casket be of unusual size. In the same way a child's grave may be required for the burial of an infant. When the ground is frozen an addition may be made to the usual charge, and also after heavy snow falls.

When instructions for opening a grave are indefinite, or, for any reason, the grave cannot be opened in the location specified, the Superintendent will order it opened at such location in the lot as may seem best, under the circumstances. Such action is necessary in order to avoid delaying funerals.

No disinterment will be allowed without the permission of the company, lot owner or next of kin of the deceased.

Ordinary single graves cannot be sold to remain vacant for future use.

The prices of single graves include the use of ground, opening and closing grave and attendance. An additional charge may be made when the ground is frozen, and after heavy snow falls.

Owners of single grave spaces purchasing a family lot, may have the bodies removed from such spaces without extra charge, the space being surrendered in payment thereof.

The Superintendent can not be responsible for not having graves prepared in time for funerals, unless he has at least eight hours of daylight previous notice thereof. All orders must be left with the Superintendent of the Cemetery.

In each case of burial, a statement giving the name, nativity, residence, age and cause of death of the deceased shall be handed to the Superintendent for registry.

For the opening and closing of family vaults and services of the Cemetery employes, for the purpose of making an interment, the charges will be \$5.

No interments will be made on any lot for persons not interested in the same unless permission be obtained from the owner thereof in writing.

In case of death from small pox or cholera, the graves will be prepared by the Cemetery employes, but neither they nor the Superintendent will be present at the interment. The Board of Health must furnish tools and men to handle the remains and close the grave.

When a new grave is opened within less than a foot of a previous interment it is impossible to protect the old grave from damage and from subsequent settlement. The Association disclaims responsibility for such damage and remouning or reboxing if ordered will charged to the lot owner.

### REMOVALS

Removals of bodies from graves in the Cemetery will not be made after May 10th and before September 15th, unless the location is such that no damage will occur to adjoining graves or lots, or to the general appearance of the grounds.

It is very difficult to make removals when the ground is deeply frozen, and charges in such cases will be made in accordance with the difficulty of the work.

### MONUMENTS

A monument shall be defined as any memorial structure, other than a marker, erected upon a lot, except a vault or mausoleum.

*No monument will be permitted to be erected upon any lot which has not been fully paid for.*

No monument, headstone or portion of any vault above ground shall be constructed of other material than cut stone or real bronze. No artificial material will be permitted.

Only one stone can be placed at a grave and but one monument on a lot. Curbings of stone or iron around graves will not be allowed.

It is highly desirable that uniformity should be maintained in the stone work upon lots, therefore the use of two or more kinds of granite varying materially in color or texture will not be permitted on any private lot.

**EXCEPTIONS:**—To avoid hardships to those lot owners who have already erected markers of white marble upon their lots other similar markers will be permitted on such lots, but this exception shall not apply to monuments or other stone work. The regular Government markers will be permitted at soldiers' graves, although they will be found neither durable nor satisfactory.

The copying of another monument is to be avoided. It can be considered but little less dishonest to appropriate another person's design than to take the stone itself. No matter how pleasing the design may be, to duplicate it destroys the effect and injures the appearance of the Cemetery.

No monument will be allowed placed on any lot the area of which is less than 160 square feet.

No monument, the bottom base of which covers more than 10 per cent. of the area of the lot upon which it is to be erected, is allowed, except in Section A, where monuments must not cover less than 10 per cent. nor more than 15 per cent. of the area of the lot.

## GRAVE MARKERS

Headmarkers on Section A will not be permitted above the surface of the ground and must not be less than 18 inches in width and 10 inches in thickness. All marker foundations on this section will be built 6 inches below the surface of the ground.

On Sections E, I, L, M, N, headmarkers will be restricted to 12 inches in height and to be not less than 18 inches in width and 10 inches in thickness. Inscriptions to be made on top of the marker.

On Sections C and K, headmarkers will be restricted to 4 inches in height and to be not less than 18 inches in width and 10 inches in thickness. Inscriptions on top of marker.

On Section A, C, and K, monuments and headmarkers must be axed or polished, no rock faced work will be permitted.

On single grave sections, headmarkers will be restricted to 12 inches in height and to be not less than 14 inches in width and 4 inches in thickness. Plans for all monuments must be submitted to the Board for approval.

The Trustees wish, as far as possible, to discourage the building of vaults, believing, with the best landscape artists of today, that they are generally injurious to the appearance of the grounds, and, unless constructed with great care, are apt to leak and are liable to rapid decay, and in course of time to become unsightly ruins. Therefore, no vaults will be permitted to be built, unless the designs for the same are exceptionally good and the construction is solid and thorough. The designs must be submitted to the Trustees and will not be approved unless the structure would, in their judgment, be an architectural ornament to the Cemetery.

## FOUNDATIONS AND SETTING OF STONE WORK

Foundations for monuments, vaults and headmarkers must be built by the Association. The bottom of the lower base of every monument must be squared sufficiently to allow it to rest firmly on the foundation, as no wedging will be allowed.

Foundations will not be built after November 1st, or before April 1st of any year.

Orders for foundations must be left with the Superintendent at least two weeks before the erection of the monument, vault or marker, and payment made at time of giving the order.

All workmen engaged in erecting monuments or other structures are prohibited from attaching ropes to trees or shrubs, unless by permission and under the direction of the Superintendent, and from scattering their material over adjoining lots and any workman failing to conform to this regulation will not be permitted afterward to work on the grounds.

The setting of monuments, stones and vaults, and the transportation of all tools, material, etc., within the grounds shall be subject to the supervision and control of the Superintendent, and except when special permission is obtained, all such work shall be completed and rubbish removed before 12 o'clock (noon) on Saturday. Tools and material for work which cannot be so completed, will not be allowed to enter the grounds.

Material for stone or marble work will not be allowed to remain in the Cemetery longer than shall be strictly necessary, and refuse or unused material must be removed as soon as the work is completed. In case of neglect, such removal will be made by the company at the expense of the lot owner or contractor. No material of any kind will be received at the Cemetery after 12 o'clock m., on Saturday.

The Board of Trustees shall have the right to make exceptions from the foregoing rules

in favor of designs which they consider exceptionally artistic and ornamental, and such exceptions shall not be construed as a rescission of any rules.

## REGULATIONS CONCERNING VISITORS

No person is to be admitted with a gun or dog, nor are firearms of any kind, or fire-crackers, or the like, to be discharged on the premises, except such as are appropriate at military funerals.

No vehicle is to be driven in the Cemetery faster than a walk or slow trot, and persons are respectfully requested not to drive off of the avenues, nor turn on the grass. Carriages and vehicles must not turn on the avenues, but must be driven around the section on the way out of the Cemetery.

Omnibuses or conveyances of cumbersome description will not be allowed to enter the grounds without permission.

No horse is to be fastened, except at a post provided for that purpose, and no horse is to be left unfastened without a keeper.

All persons are prohibited from gathering flowers, either wild or cultivated, or from breaking down any tree, shrub, or plant upon the premises.

All persons are prohibited from writing upon, defacing or injuring any monument, fence or other structure in or belonging to the Cemetery.

All persons are strictly forbidden to throw rubbish on the avenues or any part of the grounds.

Children will not be admitted without their parents or guardians, or some grown person in charge of them.

No visitor will be permitted to disturb the fish, birds or fowls.

*No person or party having refreshments of any kind will be permitted to come within the grounds.* Those having baskets or bags of any kind will be required to leave them with the gate-keeper.

All funeral processions while within the grounds will be subject to the control of the superintendent or his assistants.

Strangers must not approach the grave at a funeral.

Visitors are reminded that these grounds are sacredly devoted to the interment of the dead, and a strict observance of all that is proper in a place so dedicated will be required of all who visit it. No lounging around on the grass will be permitted.

No money is to be paid by visitors to any person employed upon the ground.

Carriage drivers and others employed at funerals must always keep to the right on the avenues and remain with their respective vehicles during funeral ceremonies, and otherwise conduct themselves properly and in a manner becoming the place and occasion.

 The Superintendent and his deputies are invested with full police power to arrest any offender in these grounds, and the company exact the discharge of this duty. They will expel from the Cemetery any person disturbing its sanctity by noisy, boisterous or other improper conduct, or who shall violate any of the foregoing rules, and will subject the offender to due punishment.

### AUTOMOBILES

Lot owners and owners of graves may enter the Cemetery grounds in their automobiles by obtaining an automobile admission card at the office, and then only under the following regulations, which will be rigidly enforced:

- No. 1. Automobiles while within the Cemetery grounds shall not be operated at a speed to exceed eight miles per hour, and in no case must automobiles be turned in the avenues nor on the grass, but must be driven around the section on the way out of the grounds.
- No. 2. When meeting any horse drawn vehicle, whether in funeral procession or otherwise, automobile must be brought to a dead stop, and, if necessary the engine shut off.
- No. 3. Lot owners may enter the Cemetery grounds with their cars between the hours of **8 o'clock A. M.** and **6 o'clock P. M.**, during the months that it is day light until **6 o'clock P. M.**, and during all other months from **8 o'clock A. M.**, until sunset.
- No. 4. Automobiles will be allowed to enter the Cemetery grounds on Decoration day only between the hours of **8 o'clock A. M.** and **12 o'clock noon.**  
**Absolutely no automobile will be allowed to enter the grounds except during the hours above mentioned.**
- No. 5. This admission card must be shown to the gate keeper before entering the grounds. It is not transferable and must be renewed each year.  
**Any violation of the above rules will result in the withdrawal of the privilege to the holder to enter the Cemetery with an automobile.**

## PUBLIC VAULT

The Public Vault has been erected to supply the necessities of those who may not be prepared for permanent interment.

All bodies in the Public Vault before April 1st, must be buried before May 1st. From May 1st to November 1st, the use of the Vault is restricted to one month.

No corpse in a decomposed or offensive condition will be allowed to remain in the Vault, and the Trustees reserve the right upon reasonable notice, to remove the same to the single

plat or to the family lot. The remains of persons having died of contagious diseases can not be allowed in the Vault, and the Trustees reserve the right to refuse the deposit of any bodies in the Vault during the extreme hot weather, or during the prevalence of epidemics, or a crowded condition of the Vault.

Bodies dead of smallpox, scarlet fever, diphtheria, or other contagious or infectious disease, *can not, under any circumstances, be placed in the vault.*

Non lot owners wishing to place a corpse in the Vault will be required to deposit with the Superintendent the price of a single grave, according to the age of the person, in addition to the regular Vault charges.

In all cases at the time of depositing a body in the Vault, the Vault charges and interment fees, whether to be made in private or public lots, must be paid to the Superintendent.

No burial from the Public Vault shall take place on Sunday or Holidays.

Flowers will not be allowed to remain in the Public Vault more than three days, and cards and ribbons attached to said flowers will be taken to the office and kept for one week for the owners to call for same.

Bodies that are to be removed from the Vault for burial in other cemeteries will be charged double rates.

## CREMATION RECEIVING VAULT

It frequently happens that death ensues whilst some member of the family is at a distance, with whom communication must be held, or whose arrival must be awaited, before making a final disposition of the remains. To meet such exigencies and other necessitating the

postponement of the incineration for a time, the remains can be placed in the Receiving Vault until such time as funeral arrangements are definitely settled, for the use of which there is no extra charge, unless occupied for a longer period than five days. This does not apply to contagious diseases, which will not be allowed in the vault.

## INSTRUCTIONS REGARDING CREMATION

**USE OF RETORT.** Application for incineration should be made at least twenty-four hours in advance, and the details arranged before funeral announcements are made.

All applications for cremation of bodies must present a certificate of death signed by the physician attending during the last illness, whose standing as a reputable practitioner must be attested by a magistrate or notary public. A blank for this purpose will be furnished by the Association, but in lieu of this, the certificate of the health officers of cities, in regular form, will be accepted.

**PRIVACY.** The incineration may be strictly private, if family and friends of deceased so desire. In all cases, two witnesses representing the family of the deceased are required to be present.

**PREPARATION OF THE BODY.** No special preparation of the body or clothing is necessary, except being particular to avoid all metallic substances. The body will be incinerated in the casket as received. Where a metallic casket is used, the remains are removed and encased in a winding-sheet. All caskets, or parts thereof, trimming, etc., not incinerated with the remains, are immediately destroyed, and no parts of the same are permitted to leave the crematory, except the name-plate.

**CONTAGIOUS DISEASES.** When death has resulted from any contagious disease, no exposure of the remains will be permitted.

**SHIPMENT.** On one day's notice, the Association will receive bodies coming from a distance, obtain the necessary local permits and take charge of all arrangements, undertaker's wagon being used to transport the body from the depot to the crematorium. If hearse is desired, charge will be \$10 extra. Bodies may be sent by express and will be received by the Association, if the proper removal permits or death certificates and remittances have been sent in advance. To avoid expense, when the body is accompanied by friends, a passenger ticket should be purchased for the remains, which are then transported in the baggage car of a passenger train.

**COST.** The fee for incineration, including plain copper receptacle for the ashes, is \$35.00, payable invariably in advance. Cremation certificates may be contracted for, entitling the holder thereof to one incineration on demand, for the sum of \$30.00.

**DISPOSAL AND CARE OF ASHES.** The incinerated remains are placed in a neat, plain, copper receptacle, properly sealed, and are deliverable on the day following the incineration upon presentation of a written order from the legal custodian. If so desired, they can remain in the custody of the Association for a period of three months without extra charge.

No Cremation will be made on Sundays or Holidays, except in case of contagious disease or the rules of the Board of Health require it.

### CHAPEL

The Chapel is conveniently located at the entrance of the Cemetery, and upon application to the Superintendent may be used for funeral services by the patrons of the Cemetery without extra charge.

In cold weather, at least six hours notice should be given to the Superintendent, in order that the Chapel may be properly heated.

## APPENDIX

*All Interments Will be Subject to the Following Charges. Payable When Graves are Ordered.*

### FOR OPENING AND CLOSING GRAVE

|                                              |   |   |   |   |   |   |   |   |   |   |        |
|----------------------------------------------|---|---|---|---|---|---|---|---|---|---|--------|
| { Under 4 feet in length                     | - | - | - | - | - | - | - | - | - | - | \$3.00 |
| { When stone, plank, steel or cement is used | - | - | - | - | - | - | - | - | - | - | 4.00   |
| { Over 4 feet and under 6 feet               | - | - | - | - | - | - | - | - | - | - | 4.00   |
| { When stone, plank, steel or cement is used | - | - | - | - | - | - | - | - | - | - | 5.00   |
| { Six feet and upward                        | - | - | - | - | - | - | - | - | - | - | 6.00   |
| { When stone, plank, steel or cement is used | - | - | - | - | - | - | - | - | - | - | 8.00   |

### SINGLE GRAVE PLOT

|                                                        |   |   |   |   |   |   |   |   |   |         |
|--------------------------------------------------------|---|---|---|---|---|---|---|---|---|---------|
| { Single grave for adults, including ground            | - | - | - | - | - | - | - | - | - | \$25.00 |
| { When stone, plank, steel or cement is used           | - | - | - | - | - | - | - | - | - | 27.00   |
| { Single grave for child, over 4 feet and under 6 feet | - | - | - | - | - | - | - | - | - | 14.00   |
| { When stone, plank, steel or cement is used           | - | - | - | - | - | - | - | - | - | 15.00   |
| { Single grave for child, under 4 feet in length       | - | - | - | - | - | - | - | - | - | 10.00   |
| { When stone, plank, steel or cement is used           | - | - | - | - | - | - | - | - | - | 11.00   |

## LINING GRAVES

|                                              |   |   |   |   |   |   |   |   |   |        |
|----------------------------------------------|---|---|---|---|---|---|---|---|---|--------|
| Under 5 feet in length, with evergreen       | - | - | - | - | - | - | - | - | - | \$1.00 |
| Over 5 feet and under 6 feet, with evergreen |   | - | - | - | - | - | - | - | - | 2.00   |
| Six feet and upwards, with evergreen         | - | - | - | - | - | - | - | - | - | 3.00   |
| Use of grave drapery                         | - | - | - | - | - | - | - | - | - | 1.00   |
| White grave drapery, 6 feet and upwards      |   | - | - | - | - | - | - | - | - | 5.00   |
| Colored grave drapery, 6 feet and upwards    | - | - | - | - | - | - | - | - | - | 7.00   |
| White grave drapery for child                | - | - | - | - | - | - | - | - | - | 3.00   |
| Colored grave drapery, for child             | - | - | - | - | - | - | - | - | - | 4.00   |

NOTE—The Superintendent must have at least eight hours daylight notice of the time of the funeral.

Persons wishing stone or plank boxes should notify the undertaker so that the dimensions may be sent to the Cemetery with the order.

The above charges include cleaning up the surplus earth and first sodding of grave. Sunday and Holiday interments, double above charges.

## PUBLIC VAULT

|                                                           |   |   |   |   |   |   |   |   |   |        |
|-----------------------------------------------------------|---|---|---|---|---|---|---|---|---|--------|
| For receiving and discharging each body                   | - | - | - | - | - | - | - | - | - | \$2.00 |
| Rent per month, or portion thereof, over 10 years of age  |   | - | - | - | - | - | - | - | - | 2.00   |
| Rent per month, or portion thereof, under 10 years of age |   | - | - | - | - | - | - | - | - | 1.00   |

## COST OF FOUNDATIONS

Monument, marker, vaults and vase foundations will be charged for at the rate of 35 cents per cubic foot.

No foundation will be built for less than two dollars.

The above prices are subject to change without notice.

In order to avoid mistakes, orders cannot be received over the telephone, nor can they be given to any of the workmen employed on the grounds. Orders must be left at the Superintendent's office and payment made at the time of giving the order.
